

A close-up photograph of a mechanical assembly. The central component is a black solenoid valve with a white label that includes the text "TMR", "24V DC", "10A", and a CE mark. The valve is mounted on a silver-colored metal plate. A black cable is connected to the bottom of the valve. The assembly is part of a larger system with red and white structural elements. In the background, there are other mechanical components, including a yellow and black device on the right and a red pipe on the left.
